

Rubenstein School of Environment and Natural Resources

University of Vermont

Perennial Summer Internship Program - 2024

Internship Title: Greenhouse gas and soil health technician

Internship Site: Aiken Forestry Sciences Building (705 Spear St.)

Description: Join the terrestrial biogeochemistry lab to learn about the impacts of agricultural soil management practices on climate change mitigation and adaptation within the dairy industry. This position will provide opportunities to participate in both lab and field activities related to improving soil health and mitigating agricultural contributions to greenhouse gas (GHG) emissions. Current objectives are to measure GHG emissions and soil
