

Rubenstein School of Environment and Natural Resources

University of Vermont

Perennial Summer Internship Program - 2024

Internship Title: Lake Champlain Sea Grant Program Assistant (or similar)

Internship Site: UVM Forestry Lab 705 Spear St., and sites around Burlington with occasional statewide travel.

Description: The [Green Infrastructure Collaborative](#) part of Lake Champlain Sea Grant in the Rubenstein School is seeking a student intern to work with us this summer. The primary goal will be contributing to the [BLUE Stormwater Program](#). The program is a residential stormwater site assessment that collaborates with residents to identify opportunities for stormwater mitigation, affect behavioral changes, and establish stewardship principles to protect our waters from water quality degradation. Site visits happen in person, but some remote work is possible.

This position involves managing all aspects of the site visits. This includes conducting initial property owner recruitment, scheduling, site background research, providing program participants with advice and suggestions regarding residential stormwater management, and developing, delivering, and evaluating outreach materials overall program. In addition to BLUE, there will be opportunities for the intern to participate in other outreach programs hosted by Lake Champlain Sea Grant staff.

Desired qualifications/skills/coursework: Applicants should demonstrate interest and comfort in engaging with the public to discuss the impact of stormwater runoff on streams, rivers, and lakes. Experience and knowledge of Ecological Landscape Design, including Green Stormwater Infrastructure practices, such as rain gardens and permeable pavement, is especially desired, as is the ability to communicate professionally orally and in writing. A valid driver's license and ability to provide own transportation to and from various work sites is also required. Knowledge of ESRI ArcGIS software and ANR Natural Resources Atlas is also desired.

*Rubenstein students currently in their sophomore and junior years are eligible to apply for Earning Independent Study or Internship credit through the Rubenstein Internship Program is required. *

Supervision: Student will be supervised by Jill Sarazen, Lake Champlain Sea Grant Green Infrastructure Collaborative Coordinator

Start and End Dates: Mid-May – Mid-August, 2024 (exact start/end dates are negotiable)

1. Click the following link to view the Rubenstein Perennial Internship Descriptions in Handshake:
