

# OASIS Resources for Students

Accepted applicants to the Larner College of Medicine begin to interact with the OASIS system

prior to matriculation. They continue to use the software throughout their undergraduate medical education career to access and build schedules, to make lottery selections, to monitor degree progress, to complete course and faculty evaluations, and to verify curriculum level requirements. Please find links to related user guides and FAQs below. For assistance with course and/or faculty evaluations, please contact [the Evaluation and Research Specialist](#).
