

Pasture, Rangeland, Forage Program (PRF)

(RMA program) The PRF Program is designed to provide insurance coverage on your pasture, rangeland, or forage acres. This insurance coverage is for a single peril, lack of precipitation. This program is based on precipitation using the NOAA Rainfall Index. The program is designed to give you the ability to buy insurance protection for losses of forage produced for grazing or harvested for hay, which result in increased costs for feed, destocking, depopulating, or other actions. Coverage is based on the experience of the entire grid in which your farm is located.

Livestock Indemnity Program (LIP)

(FSA program) LIP provides benefits to livestock producers for livestock deaths in excess of normal mortality caused by adverse weather. In addition, LIP covers attacks by animals reintroduced into the wild by the federal government or protected by federal law, including wolves and avian predators.

Apiculture (API)

(RMA program) Like PRF, API covers one peril: lack of precipitation. This coverage provides a safety net for
