THE MADE IN NEW YORK

The figure consists of three vertically stacked panels. The top panel is a heatmap of a forest area, with colors representing different categories or values across the terrain. The middle panel is a bar chart with four bars of increasing height, labeled '100%', '50%', '25%', and '10%'. The bottom panel is a scatter plot with numerous small dots, where each dot's color corresponds to a specific category from a legend.
