

Disclaimer:

UVM Plant Diagnostic Clinic samples were considerably reduced in 2020 due to COVID-19. Although the PDC remained open for commercial specimens, numbers were limited due to limited mail access. Home garden samples were not accepted after March 2020 and the UVM Master Gardener Helpline volunteers were not active in the PDC throughout the 2020 growing season.

Following report contains a summary of the samples submitted to the Plant Diagnostic Clinic from 01-Jan-2020 through 12/31/2020. A total of 19 sample(s) have been processed during this time period.

The following diagnosticians were involved in processing samples for the laboratory from -M invm_asg d bu
