

Pine Hill - 6/25/19

A and **B** are possible sites for the pole. The pole is shown in the sketch growing because there is room along the main track to grow anything and on siding. But, no evidence of any foundation or other industrial remains. Vegetation is often thick in places the ground is springy wet. No structure is anywhere with the spade probes. Could the pole have been
 ① closer to the station ② further east along the main, or ③ not track side
