

University of Vermont  
Department of Physics  
Physics 3650: Introduction to Solid State Physics  
Fall 2023

---

Instructor:	Dr. Dennis Clougherty	Time:	TR 1:15-2:30 PM
Email:	<a href="mailto:dennis.clougherty+PHYS3650@uvm.edu">dennis.clougherty+PHYS3650@uvm.edu</a>	Place:	

Accommodations: In keeping with University policy, any student with a documented disability interested in utilizing accommodations should contact SAS, the office of Disability Services on campus. SAS works with students and faculty in an interactive process to explore reasonable and appropriate accommodations, which are communicated to faculty in an accommodation letter. All students are strongly encouraged to meet with their faculty to discuss the accommodations they plan to use in each course. See <http://www.uvm.edu/access> for more information.

Academic Integrity: It is expected that all students will adhere to the University code of academic integrity. Students are prohibited from publicly sharing or selling academic materials that they did not author (for example: class syllabus, outlines or class presentations authored by the professor, practice questions, text from the textbook or other copyrighted class materials, etc.); and students are prohibited from sharing assessments (for example, homework or a take-home examination). Violations will be handled under UVM's Intellectual Property policy and Code of Academic Integrity.
