Faculty Senate Resolution Requesting the University of Vermont and Affiliated Organizations Divest from Fossil Fuels

HEREAS, the Faculty, including those who study climate change science and the impacts of climate change, recognize the local and global impacts of climate change as a critical policy issue.

HEREAS, continued investments in the fossil fuel industry are counter to the University of Vermont's ethos as a green university with a sustainability education requirement.

HEREAS, the Faculty Senate acknowledges that maintaining fiduciary responsibility in the past has included disinvestment in such things as tobacco companies and those doing business in South Africa due to apartheid.
